

# What Our Business Partners Say...

"The UES staff has gone above and beyond to provide support and resources to our safety committee. They helped implement our safety reward program and are available at short notice to assist when safety questions or issues arise. We truly appreciate what they do for us. "

**Stan Spaid, Safety Manager**  
**Wickett & Craig of America**

"Experience, leadership, knowledge and tailor made HR training; finally all of this and more wrapped up into a neat and affordable package called Unified Employer Solutions. Easily one of the best decisions our small business has made this decade. Thank you UES for the expertise that you have truly delivered."

**Rodney Estep, Executive Director**  
**Hollidaysburg Ambulance**

## HELMBOLD & STEWART GROUP

## Inn8te Management, Inc

Consulting and Training for Business and Industry.

**INNATE MANAGEMENT's philosophy** starts with the understanding that for most people, the skills of business and management are *innate* and intuitive. In other words, your managers, supervisors and employees are guided by natural abilities with which they were born ... and that have been refined through their experience and the knowledge they have acquired over the years. However, in today's business world, these abilities need honed and applied for you to derive the maximum benefit. Innate works with your people to help them apply skills quickly and easily. As a result of our approach, your people function more successfully in their leadership, management, supervisory or employment roles.
